

Wed. Night 7:30

Dear Jimmy,

My main activity has been studying Swedish and I am doing O.K. and learning alot. The grammar part is confusing but after I study each new lesson I get it figured out. I like to also spend some time on one lesson ahead so I will know what the teacher is talking about when she starts on it. Dad is a big help and he just loves helping me. He is in Los Vegas now so I have to get along with out a tutor this week. Just think - I didn't play bridge tonight, even tho it is our regular bridge night, just to stay home and study. Joyce called from the club and wanted me to fill in but I didn't.

Uncle Jim had his operation yesterday so he doesn't feel very good yet. I won't go into detail on the

horrible ordeal but I guess he will be alright.

Last week-end we were up at the cabin with John and Marie Donnelly. The weather was beautiful. Dad and John piled our new load of wood and the rest of the time we played bridge. Ruthie and her girl friend and children dropped in every now and then. Their husbands were hunting so the girls were up without them. The weather was beautiful but the nights were cold but we were very comfortable with a big fire in the fireplace.

Gail came home tonight and is going over to Ellensburg tomorrow Saturday night. She and Guss will come back and go up to Ruthie's cabin and spend the night. I had the sleeping bags which were yours and Mary cleaned today.
